

Recognise potential – pave the way

The "W.I.R – work and integration for refugees" contact point in Hamburg wants to integrate refugees as quickly as possible into the labour market. For this, the Behörde für Arbeit, Soziales, Familie und Integration (Agency for Labour, Social Work, Family and Integration), the Agentur für Arbeit (employment agency) and the Jobcenter team.arbeit.hamburg are working closely with Hamburger refugee assistance organisations as well as chambers and associations of the economy. This is being coordinated jointly at Millerntorplatz 1.

Whom does it concern?

- Refugees with good prospects of being allowed to stay that have yet to be advised by the Agentur für Arbeit or by the Jobcenter team.arbeit.hamburg.

What is being done?

- If you belong to this group, employees of the refugee centre will arrive at the shelter and will hold an initial information and consultation (pre-screening) with you. If you acknowledge and agree to this, an appointment for a consultation at W.I.R. on the Millerntorplatz 1 will be agreed.
- You will then come at the agreed date to Millerntorplatz 1. There the details of your life and legal situation will be discussed in detail and together with professionals the next steps will be planned and commenced.

Please note: The focal point is currently under construction. No counselling sessions are currently being held at Millerntorplatz 1. These will start on 30 October 2015. Even afterwards, an appointment will be required for all discussions at W.I.R. Please do not come without an appointment. For capacity reasons, we can not advise you without one.

Who can you contact until October 30?
